WORK EXPERIENCE

OneCareVermont

Colchester, VT

Information Analyst

Feb 2019 – Present

- Oversee review, analysis, summary and reporting of utilization data from claims and electronic medical records for OneCare's Utilization Review Committee
- Coordinate data collection in support of annual electronic medical record abstraction for OneCare's clinical quality measures
- Build customized dashboards that highlight trends and variation in key performance indicators in support of performance monitoring and decision-making
- Develop evaluation tools and procedures for measuring the success of OneCare programs
- Use knowledge of database structures to improve interoperability, usability, and documentation of data spanning multiple payers and a statewide system of care
- Respond to ad hoc requests for information analysis, including project evaluation, statistical analysis, geographical analysis, and data visualization

Fort Drum Regional Health Planning Organization (FDRHPO)

Watertown, NY

Population Health Data Analyst

May 2015 – Jan 2019

- Transformed health data into actionable information featured in reports, maps, and other visualizations to promote the health and well-being of the region's population
- Presented population health information to members of the region's population health improvement coalition and other audiences
- Maintained the North Country Health Compass website (www.ncnyhealthcompass.org) as a regional hub of information on best practices, funding opportunities, population health status, and health disparities
- Led collaboration among hospitals, local health departments, and community-based partners to write community health assessments and implement community health improvement plans with the goal of improving patient outcomes and health system performance

New York State Energy Research and Development Authority (NYSERDA)

Albany, NY

Performance Management and Evaluation Systems Intern

Nov 2013 – May 2015, 40 hours per week

- Developed reporting systems for NYSERDA-administered funds and initiatives, including the Regional Greenhouse Gas Initiative and the Renewable Portfolio Standard
- Created maps, data visualizations, and data sets using ArcGIS Desktop, Tableau Desktop, and Excel for use in reports and by program staff
- Prepared data sets for release on New York's Open Data Portal (<http://data.ny.gov>)

Development Authority of the North Country (DANC)
